Please fill in this form and send it back with your certified copy to CIPA, to the attention of Sylvie Lacoste s.lacoste@plastiques-agriculture.com fax (33 (0)1 44 01 16 52. CIPA will preserve the private character of the member's information, in compliance with EU competition law.

CIPA

CIPA	
CIPA	Non-profit international organization
Vision	<p>Plasticulture will play a continuous increasing role in the growing demand of the mankind feeding. Plasticulture improves production in quantity and quality, using less pesticides, fertilizers, water, etc... Since the beginning, the plasticulture community is involved in the environment protection, reducing the negative impact of the agricultural production. Once collected, plastics wastes from agriculture can be recycled.</p> <p>Plasticulture has a tremendous contribution to an Intensive Ecological Agriculture and the Circular Economy.</p>
Mission	<ul style="list-style-type: none">✓ International exchange platform between national committees✓ Promotion of the formation of new committees✓ To provide information to world plastic community on research and studies relating to the use of plastic materials in agriculture✓ To encourage, in the widest economic sense, solutions to scientific and technical problems in the field of plastics in agriculture, through total international harmonisation✓ To promote experimentation of plastics in agriculture and standardisations. This activity will encourage the creation of quality standards, subjected to CIPA assessment, in order to achieve international standards✓ To study and analyse any relevant questions related to plastics in agriculture and the environment
Members	<ul style="list-style-type: none">✓ Active members: the National Committees for Plastics in Agriculture (NCPA)✓ Associated members: individuals or legal entities whose activity is related to plasticulture, in countries without NCPA✓ Affiliated members = non-profit organisations, associations, university institutions, and in general any scientific organisation, or individuals who are not involved in the plastics business✓ Honorary members = prominent individuals who have contributed in an outstanding way to the aims pursued by the CIPA.
Activity	<ol style="list-style-type: none">1 Organizes an international symposia2 Publishes a magazine "Plasticulture"3 Works closely with the appropriate international organisations
CIPA's organization	<ol style="list-style-type: none">1. General Assembly of members2. Administrative council (board): Presidents of NCPA3. Executive council (steering committee) :<ul style="list-style-type: none">- President : M. Paul Cammal (France)- The vice-President I : Dr Juan Munguia (Mexico)- The vice-President II: M. Itzhak Esquira (Israel)- The General Secretary -Treasurer: M. Bernard Le Moine (France)- The International Technical Commissions (no commission for the time being)
General philosophy	<p>The CIPA intends to create a World Plasticulture Alliance (WPA) in order to develop the contribution of the plasticultures for an Intensive Ecological Agriculture and the Circular Economy.</p> <p>Therefore, the CIPA is entitled to bring advices and expertise throughout the world, being the link between plasticulture community and an exchange platform between scientific community, industry and users.</p> <p>The CIPA is the representative body and the speaking voice of the world of plasticulture.</p>
